Detailed Action

This is the second Office Action corresponding to communication filed Feb 21, 2006. The application contains 21 claims. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Korean Patent No 20-0253576.

This patent discloses at Figs 4 and 5 a monitor (1), a base (9), a stand (8) between the monitor and the base, and a hinge means (7) connecting the stand to the base allowing for pivoting of the monitor relative to the base. Fig 7 discloses the hinge comprising a shaft (10b). Please note that a “rotation control unit” as recited in claim 1 can be almost anything. The Korean patent must have means to allow and limit the pivoting range of the hinge.

Allowable Subject Matter

Claims 3-21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

Applicant's arguments have been fully considered but they are not persuasive.

Contrary to Applicant's arguments, the Korean Patent inherited teaches a rotation control.

Fig 4 of the Korean Patent shows a stand in a vertical position with respect to the base.

Fig 5 discloses the stand rotated with respect to the base. In order to do this, the Korean Patent must have a means (control unit) that prevents rotation of the stand (as in Fig 4) and that allows rotation of the stand (Fig 5).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than

- SIX MONTHS from the mailing date of this final action.
